The Synopsis Outreach Foundation's ***sciberpalooza!***
Online Science Fair for CA 6th Graders Awards \$7,500 in Prizes

The non-profit Synopsis Outreach Foundation is sponsoring its fifth annual ***sciberpalooza!*** online science fair for 6th grade students at public schools and private non-profit schools with 501(c)(3) status located in California. Additional information, including parental consent and entry forms, is available at:

<http://www.sciberpalooza.com/>

After completing a science project and submitting parental consent, students are invited to fill out a brief entry form, record a short video and upload it to YouTube. The deadline is May 1, 2012 at 5 p.m.

Judges will review the entries and select up to 15 "Best of ***sciberpalooza!***" winners. Each "Best of ***sciberpalooza!***" project will be awarded \$250 for the student and \$250 for the school.

The non-profit Synopsis Outreach Foundation was founded in 1999 and supports students and teachers developing science projects. During the current school year, the foundation is providing support to more than 130,000 students and 4,800 teachers at 580 schools. More information about Foundation programs can be found at www.outreach-foundation.org.
